

# OUR FOOD PHILOSOPHY

At The Learning Bee, we've created a healthy, exciting and informative food system that introduces our children to healthy eating habits from the start.

## the Learning Bee

We have created our own Farm to Table program and the children help us grow some of our vegetables and spices right in our own garden at The Learning Bee!

Healthy eating creates healthy bodies and brains.

Our children love the delicious and healthy recipes created on-site.

You don't need to worry about a big evening meal, because we provide it for lunch!
